

Diksha Deware

Fullstack Developer | Open Source Contributor

dikshadeware@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [X](#) | +91 8999833245 | Mumbai, India

SUMMARY

Full-stack developer (MERN) with internship and open-source experience. Shipped 20+ merged PRs to production codebases, currently interning at Welldone Health, and have built and deployed multiple full-stack projects independently. Comfortable across the whole stack and quick to pick up new tools.

EXPERIENCE

Welldone Health

Apr 2026 - Present

Software Developer Intern

- Building and shipping features in a production React and Python Django codebase; involved in code reviews and bug fixes across the full stack .

AboutCode | Scancode Toolkit and [Scancode.io](#)

Feb 2026 - Present

Open Source Contributor [GitHub \(Toolkit\)](#) · [GitHub \(Scancode.io\)](#)

- Merged 15+ PRs into Scancode Toolkit, a widely used Python tool for license and copyright detection. Improvements covered license rule accuracy, false-positive reduction, and detection quality across real-world codebases.

HiperHealth

Feb 2026 - Present

Open Source Contributor [GitHub \(Core\)](#) · [GitHub \(Web\)](#)

- Contributed PRs and filed reproducible bug reports to improve features, UI flows, and overall functionality across the core and web platforms.

EDUCATION

Vasantdada Patil College of Engineering, Mumbai

Aug 2023 - 2027

Bachelor of Technology in Computer Engineering | CGPA: 8.61

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python

Databases: MongoDB, Firebase (Firestore), MySQL

Frontend: React.js, Next.js, Redux, Tailwind CSS, Framer Motion

Backend: Node.js, Express.js, REST APIs

Tools: Git, GitHub, Postman, VS Code, Vercel, Render, NPM, AWS

PROJECTS

HireBuddy | React.js, Node.js, Express.js, Firebase

[Live](#) · [GitHub](#)

- Hiring platform for recruiters to track applicants and run aptitude and technical tests. Reduced manual evaluation steps, improving recruitment efficiency by ~40%.
- Firebase for auth and real-time data, role-based access for HR vs student views, deployed on Vercel. Handles real concurrent users without issues.

FluxQ | React, Node.js, Express.js, MongoDB

[NPM](#) · [Live](#) · [GitHub](#)

- Patient triage system that prioritizes by urgency and wait time. Custom priority algorithm with dynamic aging prevents queue starvation. Core engine published as an NPM package (fluxq-engine).
- REST API with a real-time dashboard for live wait-time estimates and doctor utilization tracking.

CampusConnect | React.js, Firebase, Tailwind CSS

[GitHub](#)

- College management system for attendance, marks, announcements, and leave requests across student, teacher, and admin roles. Replaced manual spreadsheet tracking.
- Firestore for real-time sync, multi-role Firebase auth. Won Best Project Award in 2nd year for technical execution, UX, and scalability.
