Diksha Deware

Frontend Developer | React.js, Next.js
dikshadeware@gmail.com | LinkedIn | Github | Protfolio | X
+91 8999833245 | Mumbai, India

SUMMARY

Full Stack Developer skilled in the MERN stack, building scalable, user-focused web applications with clean architecture and modern UI. Experienced in integrating AI-powered features and actively contributing to open-source projects. Passionate about continuous learning and creating intelligent solutions at the intersection of full stack development and AI.

EDUCATION

Vasantdada Patil College of Engineering & VA — Mumbai, Maharashtra
Bachelor of Technology in Computer Engineering — *Aug. 2023 – 2027*
CGPA - 8.61

TECHNICAL SKILLS

Languages: Java , Javascript , Typescript , Python
Frameworks & Libraries: React.js, Next.js, Express.js, Tailwind CSS, Node.js, Redux, Framer Motion
Backend & Runtime: Node.js , Express.js
Database: MongoDB , Firebase , MySQL
Developer Tools: Git, Github, VS code, Vercel, Postman

PROJECTS

HireBuddy| ***React.js, Node.js, Express.js, Firebase*** — ***Live*** - ***Github***

- Developed a smart hiring and candidate management platform enabling recruiters to streamline applicant tracking and evaluation.
- Integrated real-time candidate assessment features, including aptitude and technical tests, improving recruitment efficiency by 40%.
- Implemented secure authentication, role-based access, and Firebase backend for reliable data management and scalability.
- Deployed on Vercel with optimized performance and smooth HR–student interaction workflows.

CivicFlow | *React Native (Expo), NativeWind, Expo Router* — ***Github***

- Developed a multilingual civic-tech mobile app empowering citizens to report public issues using voice, location, and media evidence.
- Engineered multi-language voice-to-text reporting, automated geolocation tagging, and real-time push notifications, reducing manual complaint friction and improving reporting clarity.
- Optimized Android builds with enhanced performance, permission handling, and Material Design alignment for seamless cross-device usability.

CampusConnect | ***React.js, Firebase, Tailwind CSS*** — ***Github***

- Engineered a role-based College Management System centralizing attendance, academic records, announcements, and leave management into a unified digital platform.
- Built real-time data synchronization using Firebase Firestore and implemented secure authentication workflows for multi-role access control.
- Improved academic coordination efficiency by digitizing manual processes and delivering an intuitive, responsive UI.
- Awarded **Best Project in 2nd Year** for technical execution, user experience, and system scalability.

EXTRACURRICULAR

- **CESA-CSI Secretary**
  Led **8+ events** including workshops and hackathons, engaging **200+ students**, boosting technical participation on campus.

- **Training & Placement Cell (TPO Coordinator)**
  Coordinated **50+ placement drives**, assisting **200+ students** in interview preparation and communication with recruiters.
